

**Doctoral School of Environmental Sciences (KTDI)
Requirements for Lecturers and Supervisors**

1. To apply for a lecturer accreditation, please provide a recent CV, and the title and a one-page summary of the proposed course. The KTDI Doctoral School Council supports the accreditation of a lecturer if the candidate's high level of professional competence is demonstrated by the CV, and the proposed course is in line with the KTDI doctoral training plan. We especially support the accreditation of course topics that are currently not included in the training plan, but which broaden the range of training.

2. To apply for accreditation as a supervisor, please provide a recent CV and complete the table below. The KTDI Doctoral School Council supports the accreditation of a supervisor if the candidate's CV indicates a high level of professional competence and the candidate is expected to provide successful supervision of a student based on the publications in the last 5 years, grant application performance and the number of students that have been supervised.

Name:	
Occupation/position:	
MTMT (Hungarian scientific publications database) link:	
Year of PhD degree:	
Total number of Q1-Q3 publications in the last 5 years	
Total number of Q1-Q3 publications in the last 5 years as a <i>first author</i>	
Total number of Q1-Q3 publications in the last 5 years as a <i>corresponding author</i>	
Total number of Q1-Q3 publications in the last 5 years as a <i>last author</i>	
Your current research grant (if you have several grants, please provide the data of the most important one only)	
duration:	
grant provider	
amount of money	
Number of supervised scientific project (TDK) students so far	
Number of supervised diploma work students so far	
Number of supervised PhD students so far (including the number of current PhD students)	

This system of requirements was accepted by the ELTE Doctoral School Council of Environmental Sciences on 22 February 2023.
